Placerville.

We acknowledge the receipt of an invitation to the First Annual Ball of Confidence Engine Co. No. 1 of Placerville, which is to take place on the even of the 25th. We understand that it is intended to be one of the most elegant entertainments ever gotten up in the mountains. If possible we shall try to be there and assist.

We are in receipt of a copy of Ordinance No. 75 concerning the Fire Department of Placerville, to which we shall take occasion to refer at a future time. It is similiar in many of its provisions to the law which governs this department.

The Board of Delegates met on Thursday evening and elected the following officers. President John J. Cullen; Vice President, Geo. F. Jones; Secretary C. N. Noteware, Treasurer, A. A Van Voorhies.

The *Mountain Democrat* of Nov. 14th, says:—

At a regular meeting of Confidence Engine Co. No. 1, on Friday the 5th inst, ALEXANDER HUNTER, Esq., our present efficient Chief Engineer, was renominated. The other companies of the Fire Department we presume will ratify the nomination made by the Confidence boys. The duties of a Chief Engineer are arduous and responsible, and as Aleck thoroughly understands them, and has served us well, a change is unnecessary and might prove disastrous. John Cartheche, of Neptune Hose Company, is spoken af for Assistant Engineer.

From priva e letters received from Placerville we learn that the department is in a flourishing condition, and its efficiency a fixed fact. The depart of Placerville is composed of some of the very best firemen that the State can boast of, and with a continuance of the energy and determination which the displayed in keeping up their organization against the many drawbacks, there will be no such word as fail.

To the Women of the United States.

The Washington *Union* publishes the annexed letter from Mrs. Mayor Magruder, addressed to her countrywomen, proposing to them that meetings be held in every village, town and city in the country, to raise funds to be invested for the use and benefit of the now destitute widow and daughter of the late Commander Herndon. The suggestion is worthy of the heart of generous, grateful, sympathizing woman We cannot doubt that this benevolent appeal will be successfully carried out; and that the wife and child of him, whose last effort was for the safety of the wives and children of others, will be saved from the crushing ill of penury and dependence.

WASHINGTON, Sept. 22, 1857.

The undersigned has read with the most painful emotions of the loss of the steamer Central America, and sincerely deplores the sad fate of her passengers, suddenly cut off, "in health and hope," by one of those fearful hurricanes which in the past few years have made so many hearths desolate, and so many hearts to mourn.

But, 'mid the gloom and horror of that dreadful night, there is one gleam of glorious light—one gallant, noble, chivalrous action that will stand out in bold relief, and raise for its author a monument as enduring as time, indestructible as mind; its base resting in the hearts of women, and its apex as elevated as her hopes. "Save the women and children," was the first order of the noble Herndon; and shall American women forget the gallant, the noble captain, who, 'mid storm, gloom, and desolation, forgetful of himself, could think of poor, woman and helpless children? Never! no never.

I propose to my country women that a meeting be called in each city and village in the United States, and that funds be collected and transmitted to George W. Riggs, banker in Washington, to be invested for the use of the wife and daughter of Capt. Herndon, late of the United States navy—Let us do something to show our gratitude to one who in time of trouble sacrificed himself to his duty and to woman, Your countrywoman,

SARAH MAGRUDER.

To the Women of the United States.

THE RING IN ENGLAND.—By the *Liverpool Post* and the *Manchester Guardian*, the battle between Ben Caunt and Nat Langham, is variously represented in a very casual way, but the balance of the testimony is in favor of Caunt being the winner in an hour and forty minutes. As the fight took place on the 22d September, we cannot expect a proper report of it until receiving *Bell's Life* of the 27th September.

HOW SIXTY-SEVEN'S FELLOWS STARTED THEIR BALL.

BY LEMON PEEL, *alias* THE "CHAMELEON," *alias* "CAR O'LINE," *alias* "SPOONS," *alias* "SQUIZ," &c.

Two members of an up-town crowd
Thus talked on things that stirred them,
And as their voices ranged quite loud,
The Lemonpeel o'erheard them.

"Say, Toby, let us have a ball
Down at the old Apollo;
The boys will take the tickets all,
If we'll sell them at a dollar."

"No, Balty, that thing ain't the cheese,
It won't do now, old Pards,
The best thing, Toby, I believes,
Is to turn out with the Guards."

"Now, Balty, what I hear you say,
Much to my mind surprises;
For guards is on the loafer lay
For politician's prizes."

"Well, Toby, that is very true—
I know they're on it all,
And I'll give way and think with you,
And so we'll give a ball.

Now we don't want "burnt alum" here
To come and override us,
For we can manage all this ere
Without askin' no outsiders."

"Say, Balty, get the tickets gay,
Don't let the thing look rough;
And nar'y check you pass away
Without you get the stuff.

I'll get the boys to take a band;
We'll sell the tickets easy;
Now, you get Shelton's gallus band,
Eh! Balty ain't that cheesy?

There's only one request I make,
And that for only manners;
If we want the thing to surely take,
Give four Varsouviennas."

"Now, Toby, we must get some stuff;
You go and see to-morrow
If you can raise 'bout half enough,
The balance we will borrow."

So ends the meeting—and my rythmes;
When called on don't deny 'em;
But if you only have the dimes,
The ticket's out—just buy 'em!

The new house of Harry Howard Hose Company No. 55 of New York, was opened for the first time to visitors and friends on Tuesday evening, October 6th. A splendid supper was set out for the occasion.

Two firemen named B. Kincaid, and Wm. Maxwell, were killed by the falling of walls at a fire in Pittsburg.

A steam flouring mill was burned at Port Byron, N. Y. on Saturday Oct 10th. Loss $50,000. Insurance $27,000.

A fire at Roxbury, Mass. on Oct, 15th, destroyed $12,000 worth of property.

Relief Engine Company No. 11 of Albany visited New York on Tuesday Oct. 13th, and were received and entertained by Engine Co. No 34, and other companies in the department

The *New York Leader* says:—The move of the Commissioners to prevent companies turning out other than their members or exempts on parades and receptions dressed in fire rig, meets with general approval. Had the same course been adopted some months ago, much of the talk of fireman's fights would have been unheard of. It will cause quite a stir among the companies who intend turning out to-night.

Chief Engineer Howard, says the *Leader*, has at last put the finishing touch to the premises No. 21 Elizabeth st eet. Some few weeks ago we announced that another chance was open for the growlers of the *Tribune*; that an atrocity was to be committed in placing a collossal figure of a fireman on the top and front of the office. Our statement was too true—an atrocity has been committed and an enormity in shape of a man dressed in fire clothes, with a 1792 fire cap, and his cheeks distended to the size of big drums at his enormous exertions in blowing on a guilt clarionet, has found its way on the roof. Some persons who evidently supposed that such things really happened, expressed the opinion that it was intended to represent a sick Fire Warden surveying a dangerous chimney, but the word "Chief," written in large letters on the front of the cap, soon convinced them of their mistake. In our former notice of this chap we stated that "It was said to be an excellent likeness of the ex-Chief." We desire to take that all back it don't look like anybody, in particular, but close examination will show some peculiarities that remind us of the Board of Engineers. Cregier's whiskers are certainly represented; Baulch's body elongated and placed on Wenman's legs; the nose is an "original Jacobs," and the position is Peters to a dot, with the exception of swallowing the mouth piece of the "clarionet." We doubt if the Chief will allow such a specimen to adorn his office. The initials placed upon the cap of the figure, "A C.," are the subject of much remark, and the queries as to their signification are numerous. Is it "Alfred" or "Anti Carson?" That's the quesiton

Engineer Howard has so far recovered as to be able to attend to the duties of his office.

The Parade of the Newburgh Fire Department took place on Thursday October 8th. The following composed the procession: Chief Engineer and Assistants of the Newburgh Fire Department, and Engineers from abroad; Committees from Fire Companies from abroad; Judges; Fire Wardens; Newburgh Cornet Band; Cataract Engine Company No. 3, of Newburgh; A Delegation from Ringgold Hose Company No. 7, of New York; Ringgold Hose Company No. 1, of Newburg; Rondout Band; Washington Engine Company No. 3, of Kingston; Washington Engine Company No 4, of Newburgh; Albany Band; Lackawanna Engine Company No. 1, of Rondout; Hook and Ladder Company No. 1, of Newburg; Port Jervis Band; Engine Company No. 2, of Port Jervis; Niagara Engine Company No. 5, of Newburg; Kingston Band; Phœnix Hose Company No 1, of Poughkeepsie; Firemen's Band, of Newburgh; Columbian Hose Company No. 2, of Newburgh.

Lady Litchfield, and Belle of Portland contended on Monday Oct. 5th, over the Centerville track, for a purse of $500, 2 mile heats in harness.—Lady Litchfield won handily in two straight heats.—Time 5:21—5:31.

Sporting.

EMPIRE CITY REGATTA CLUB.

The third annual display of this Club came off on Tuesday, October 13th, near Yorkville; the start being made in the immediate vicinity of Conrad's ground, and the course, proceeding thence, round a stake opposite 116th street, being little under five miles. The attendance of visitors was not what it would have been had the weather been more promising. Until noon the atmosphere was damp and misty, although soon afterwards the sun shone forth and the vapors were dispersed. The time specified for the commencement was 1 P. M., but it was past 2 before the boats could be put in readiness.

The following is the programme:

First Race.—For four-oared boats; no restrictions. Paizes: $100, $10, and $10.

Second Race.—For seventeen feet working boats, two pairs of sculls. Prizes: $25, $10, and $3.

Third Race.—Champion's, single pair of sculls; no restrictions. Prizes: $10, $15, and $5

For the first race the following were the respective entries: *Charles B. Elliott, James Conchie, Robert H. Allaire, and Experiment.* The crews were Henry Osborne, James Selleck, Montgomery Jones and William Martin; Patrick Lynch, John Matthewson, William Wood, and Thomas Dire; Calvin Sprague, William Boggs, Peter O'Brien, and H. L. Sprague; William Histon, Thomas Sellers, Charles Wetherell, and William Sellers.

The race was won by *Allaire.* The *Charles B. Elliott* had given out, and the remaining boats, *Conchie* and *Experiment*, came in pretty close together.

For the second race the following were the entries: *Tiger, Daniel Williams, Charles Harcey, Emma Smith,* and *Captain D. Brophy*; manned respectively by John Mooney and William Kyle, James Cahoss and Robert Powell, John Hennessey and John Lorine, William Windoner and Andrew Latham, Richard Neville and V. Neville.

This race was won by *Brophy*, whose time was 48 minutes 8 seconds. The second and third places were filled by *Harrey* and *Emma Smith. Daniel Williams*, after turning the stake, was withdrawn.

In the third race the subjoined contested: *Geo. L. Ward, Neptune's Car,* and *Thos. Jefferson.*—These were manned by Hugh Barrs, H. Osborne, and Andrew Fay. *Jefferson* was the winner; doing the distance in 42 minutes and 16 seconds.

Altogether the rowing was of a very meritorious description; the second race being decidedly the best At the same time the boats generally were admired as good samples of the particular kind of craft, and recommendatory of their builders, among whom will be found the names of C. J. Thorns, the Green Point ship carpenters, W. H. and J. S. Dorling, James McKay, D. J. Thomas, Stephen Leghorn and J. Donnelly.

LANCET'S 5 25 TO SADDLE.

The following in relation to a race at Hartford, we give entire from a New York paper:

The sporting gentry in the neighborhood of Hartford have a half mile track on which they trot out their fast horses and show their speedy points on festive occasions. But the track has now assumed a front seat in the *American Turf Register*, as being the arena on which the fastest time in which a mile has been trotted under saddle in this country.

During the summer and fall months Mistress Flora Temple, a coquettish little horse beauty, has been making the tour of the fashionable watering places and agricultural fairs in company with a slashing black gelding, yclept Master Lancet, and they have exhibited their breeding and character by several encounters on the race course. In their peregrinations a purse of $1,000, offered by some enterprising gentlemen at Hartford, attracted the notice of these elegant tourists, and, by way of not letting such a trifle pass unnoticed, they kindly bent their heads in acknowledgment of the compliment, and were soon entered as candidates for the sugar plum displayed before them by the sons of old Connecticut The little bay mare was in harness while Lancet was to saddle

The odds were in favor of the gelding, and it was supposed he would win easily in consequence of the track having several sharp turns that would be apt to throw the mare off her feet and render her unsteady in her gait. The result proved this judgment to be correct, as the mare was put entirely out of humor by the contortions it was necessary for her to go through, and was consequently compelled to submit to the mortification of defeat. The race was mile heats, best three in five, Lancet winning the first, third and fourth heats.

The third heat was closely contested, and the extraordinary time of 2 25 was made by Lancet without a break. This, we believe, is the best time on a half track on record to saddle, (Tacony having on one occasion trotted in 2 25½,) and considering the crooked state of the track, should be rated two seconds faster. A large amount of money changed hands on making time, and considerable enthusiasm was manifested on the result being announced. The following is a summary:

Bl g. Lancet, under saddle,.....	1	2	1	1
B. m. Flora Temple, to harness,....	2	1	2	2

Time—2 35½; 2 29; 2 25; 2 28.

The great prize fight between Harry Lazarus and Dennis Horrigan, was called up for decision on Saturday October 10th, in Canada about 20 miles from Buffalo, The latter weighed 112 pounds and the former 110 pounds. The fight commenced at 3½ o'clock and lasted until darkness came over the land, when the referee decided that the battle should be drawn, which was accordingly done.—One hundred and twenty-eight rounds were fought the last two being enlivened by the introduction of candles, a novelty in the prize ring on this side of the big pond. From the opening of the battle until its close, Lazarus had decidedly the advantage, having the first knock down and the first blood awarded in his favor. Horrigan proved himself a game man but lacked science, while the rapidity of Lazarus' hitting and his ability as a wrestler worried master Dennis considerably

The match race between the yachts Wanderer and Sea Drift for $5,000, around Long Island, appointed to take place on Monday Oct. 12th has been postponed. The parties interested, by mutual consent have delayed the match in consequence of business arrangements, and being unable to bestow their attention on it at tee present time There is little doubt, however, of its being renewed at an early day.

TWENTY MILE TROT AGAINST TIME.—The announcement that the celebrated trotting horse, Prince, had been backed in a match for $5,000 to $4,000, that he would trot twenty miles in one hour, to wagon, brought together a large assemblage last Thursday Oct. 8th, on the Centreville (L. I.) Course. The betting had mainly ruled in favor of the horse, and the backers of time backed down with a (supposed) forfeit. Much dissatisfaction was expressed as the company separated.

Atlantic Theatricals.

A trial of copyright has just been inaugurated at Philadelphia Arrangements had been made to bring out "Jack Cade" at the Arch, Mr. E. L. Davenport as the hero, with the consent of Judge Conrad, the author. Mr Forrest, who claims the copyright, applied to Judge Grier for an injunction against its production. The question, which has not been decided, is—"Was Mr. Forrest's copyright affected by the passage of the Authors' Copyright Bill?" The play went on at the Arch, at all events. One of the Philadelphia papers thinks that Judge Grier Dogberried himself in his asking "Who is the author of the play?" and suggests that he might have asked the same question next to Macbeth.

Geo Christy and A. H. Davenport had a fight on Broadway on W dnesday Oct. 14th, and Mr. Davenport quite severely punished his opponent who practiced it is said, a little of the Western game biting Mr. Davenport's fingers severely. A rough and tumble clench followed, in which the clothes of both combatants suffered more than their persons, after which they were separated by friends. Neither party was so seriously injured as to prevent their fulfilling their engagements upon the stage.

Mademoiselle Rachel, whose return to France n improved health, and residence at Cannes has been already announced—proves to be much worse than was at first supposed. Her recovery or even her continued life is said to be despaired of, and in view of probable approaching dissolution she has sent for her mother, her sister and her children.

Lola Montez has been delivering her lectures on "Beautiful Women" and 'Art and Women of Paris' at Worchester and Boston—at the latter place for charitable objects; She is highly spoken of by a part of the press of that city, and draws good houses.

Manager Wm. E. Burton opened the Front Street Theatre, Baltimore, on Monday evening last Oct. 12th with Mr. Murdock, in the "Robbers"—Mrs. Hudson Kirby took the place of leading lady. Mrs Frank Drew, Miss Woodward, Messrs. Harry Watkins, Roys, Meyers, Spackman and Burgess are of the company.

The Ravels have been winning favorable opinions and drawing good houses at the Holliday street theatre, Baltimore.

Mr. Murdoch has been drawing only fair houses at the National Theatre, Philadelphia. The remarks of the *Dispatch* is that "business is falling off in all the theatrical establishments" in Philadelphia.

Mrs. Haight, a young singer and pianist of rising reputation, gave a concert at Park Hall, Jersey City, on Friday, Oct. 9th, which was very successful in every point of view. We understand that concerts are contemplated in New York and Brooklyn.

From Our Regular Correspondent.

BOSTON, Oct. 20th, 1857.

Mr. Editor:—Knowing the wide spread reputation of your valuable paper among the firemen of California, and the fact that we on this side of the water, frequently have the opportunity of perusing your sheet, I thought that an occasional letter might be read with pleasure by your numerous readers, especially those from Massachusetts. In view of that fact, I shall endeavor on the sailing of each steamer, to send you whatever matters of importance that has transpired among the Fire Departments of Boston and vicinity.

The Fire Department of Boston, as most of your readers are aware, is a paid organization, and in many places are denominated as paid firemen. It consists of 1 Chief Engineer, 9 Assistant Engineers, 14 Engine, 6 Hose and 3 Hook and Ladder Companies; in all comprising a force of about 725 men, exclusive of volunteers. A large number of that useful class run with each company, notwithstanding the fact that the Chief Engineer and Assistants have endeavored to stop them. But it's no use, they will run.

The engines are all of Hunneman make and about 5¾ inch cylinder, with 16 inch stroke of piston.—These little engines are admirably adapted to the City of Boston, as many of the streets are so narrow, that a large double-deck engine, or a long piano, could not work to advantage.

The Hose Companies have in their possession two two-wheeled carriages, which carry 500 feet of hose each. They however, run but one carriage, unless a large fire is raging in their District, and then they run both. The Hose Companies, as a general thing, are composed of a jovial set of fellows and many of them attend fires in full rig

The Hook and Ladder Companies have large and cumbersome carriages to carry ladders, etc. on; they cannot be called trucks, for the reason that they are not that kind of an apparatus. Each carriage is drawn to fires by two horses, and when they go through the streets on the occasion of a fire, pedestrians have to keep an eye open for their own safety.

The Engine Companies are composed of forty men, besides a Foreman, First Assistant, Treasurer, Clerk, and Steward. The Hose Companies consist of twenty men, with the same officers, and the Hook and Ladder Companies twenty-four men, and officered the same as those above.

The Chief Engineer's salary is $1200 a year; Assistant Engineers, $250 each; Foremen of the Engine, Hose and Hook and Ladder Companies $150 each; Assistant Foremen $125 each; Clerks $125; Stewards $125; members $100 each. By this it will be observed that it costs a small pile to carry on the Fire Department of Boston, and the organization is very efficient.

As regards fire news there is not much to communicate. The firemen hereabouts have had their attention greatly taken up by the various parades and musters which have taken place in Harlford, Worcester, Boston, etc.

This Fall we have received a number of visits from Fire Companies from abroad. Last month, Americus 6 of New York, paid us a visit, but were received by America Engine Company No. 2, of Roxbury, a city a short distance from Boston.—During their stay they were hospitably entertained and went away with a good opinion of Down East Firemen as the New Yorkers sometimes term us.

On the 11th of October, Guardian Engine Company No. 29 of New York, 64 men, Capt. E. Bates, in fire hats, red shirts, and black pilot cloth coat and pants, and accompanied by the Washington Brass Band, paid our city a visit and were received and entertained by Barnicoat Engine Company No 11, Capt H. A. Hunting. As this was the first New York Fire Company that had ever visited Boston, considerable interest was manifested to make the stay of the visitors agreeable. They arrived on Friday morning, were escorted around the city to their quarters. They visited the city of Charlestown during the afternoon, and afterwards partook of a dinner in Boston. In the evening the Guardians were entertained to a grand complimentary ball which was attended by about 300 couples many of whom were firemen. "During the day and night no less than three alarms of fire prevailed, which gave the New Yorkers an opportunity of hearing our model fire alarm (of which I will speak in my next) and observing the manner in which the boys turn out. The Guardians left for home on Saturday the 18th carrying with them the good wishes of the Boston firemen.

Fires are scarce but we have a number of alarms, The loss of property by fire for the past three months will not be over $500 so you see we have an easy time of it. RED JACKET.

Letter From Folsom.

FOLSOM, Nov. 17th, 1857.

Editor Fireman's Journal:—The Mutual Hook and Ladder Company of this place, held their regular semi-annual, and also their regular monthly meetings on Wednesday, Nov. 4th, for the election of officers. Mr. Charles Plannett was elected Foreman; Mr. Frank Wheeler, First Assistant; Mr. E. Biggs, Second Assistant; Mr. R. D. Rowley, Treasurer, and Mr. Jas. H Humphreys, Secretary.

The affairs of the company are in a very prosperous condition, considering the short time it has been organized. They number forty members; the best and most energetic citizens of the town. Their truck is paid for; it being the old St. Francis of your city; but improved and refitted in such a style, that her former owners would be troubled to recognize her. The company have also a fine truck house and meeting hall, which are also paid for.—Also the lot upon which their building stands, and have still considerable money in the treasury.

Our town wears a lively appearance at present, and new and substantial buildings are continually being erected. Yours &c.,

The Fashionable Preacher.

A NEW YORK SKETCH.

The fashionable preacher is a mortal always adored by his congregation, the female portion particularly He is a mortal, but is sometimes deemed an unwinged immortal, and eclipses the Divinity whom he preaches. He prays resoundingly (to the congregation) and his "amen!" sounds like the tap on a bass drum. He is meek, exceedingly so—in the pulpit—he loves his hearers collectively, and sometimes individually; he hates sin and the devil—professionally. Discourses eloquently of charity from a mahogany pulpit, but forgets his charity for those who differ with him Gives liberally (his advice) in his resonant sermons, but always has his purse in his other pantaloons pocket when he meets a mendicant.

Sends the gospel to Barioobooha-Sha, and sends the heathen at home—to the gutter. Perfumes his sermons with sacred poetry, and perfumes his white handkerchief with *eau de cologne*, Speaks yearningly of that other world, but would doubtless prefer staying where he is better acquainted—Calls his congregation the sheep of his flock, and pulls the wool over their eyes while he shears them.

Studies attitudes as he studies his sermons, and lifts his arms with inimitable grace, to beseech the divine grace of—heaven! Delivers from a three-story pulpit—where he is elevated far above his hearers—persuasive harangues upon moral propriety Acts as though sin could be drawn from man, as that beautiful rich Eve was taken from Adam, by throwing him into a gentle slumber; or, as the dentist extracts a tooth, by administering *chloromal* discourses and most etherial sermons. Of mortality he talks in the aggregrate, but never descends to particulars If one of his congregation, by mortgaging his property, swindles a friend out of a few thousand dollars, never rebukes the man as the prophet did David; never mentions it at all, that is a *secular affair* and belongs to the world.

Prays to GOD not for wealth, which he wants not neither for poverty, which he cannot bear, but only for a competence, by which he means a three story competence, finished with brown stone, all the modern conveniences and a spacious basement.

Believes there is no gate to Heaven but through his church, and calls other denominations "sects." Sends his brethren upward upon "flowery beds of ease," but whether or not PETER lets them pass the pearly portals, we, being poor, miserable sinners, cannot tell.

If he preaches at night, always arrives after the audience is seated and waiting; sometimes, if there is a crush, he has to rise mysteriously through a trap door in the pulpit, as many have seen Parson BEECHER do; this always produces a fine effect—so theatrical and striking. Before his entrance the gas is turned down to a moonlight mellowness, and a dim obscurity broods over the congregation; the organ is silent.

But the moment arrives; the popular preacher enters; the gas blooms into a magnificent brilliance the ladies bend eagerly forward and a murmurous expectancy permeates the air, silks rustle and feathers and fans wave; the organ peals a grand voluntary, and the minister, slowly mounting the richly carpeted stairs, sinks into the silken pulpit cushions and opens a hymn book.

"Is it the worship of GOD or man," sadly asks my friend BURALTON, whom I had accompanied to the exhibition. I do not know, I cannot answer him, but think of the poor Publican who stood afar off and smote upon his breast and cried, "GOD be merciful to me, a sinner." W. E.

REPAIRED.—The roofs of the various engine and truck houses requiring it, have been repaired during the last week, under the Chief Engineer. Asphaltum has been used in covering the roofs.

Removal.

The office of this paper has been removed to the Second Story of SHERMAN'S BUILDING, Northeast corner of Montgomery and Clay streets.

To Firemen Throughout California and Oregon.

Having been properly empowered by the manufacturers, we are now ready to negotiate with companies throughout California and Oregon, (about purchasing new apparatus,) for the sale of the celebrated Button Engines; whose power and capacity is so well known.

Terms made known at this office.

Agency.

Mr. JOHN T. CRAWFORD is our duly authorized agent at Sacramento, to receive and collect subscriptions, and to attend to all matters appertaining to it. All orders for the FIREMAN'S JOURNAL, left at the Book store of CARSEWELL & HOSSACK, Read's Building, Third street near the Post Office, will be promptly attended to.

Fireman's Election.

Notice is hereby given, that the election for Chief Engineer and 1st 2d and 3d Assistant Engineers, will be held on MONDAY, the 7th, day of December next, in pursuance of an "Act to regulate the Fire Department of the City of San Francisco," approved March 25, 1857. The polls to be held at the MONUMENTAL Engine House, on Brenham place, and to be kept open from 9 A. M., until 5 P. M., under the supervision of JOHN SHORT, P. W. VAN WINKLE and F. L. JONES, duly elected Judges for that election by the Board of Delegates.

FLORENCE MAHONY,
President S. F. F. D.

SPECIAL NOTICE.—The Secretaries of the various companies of the Fire Department are hereby notified that the annual or voting rolls of their respective companies must be returned to the undersigned on or before the 25th day of Nov., 1857 in accordance with Article 10th Section 3d, of the Laws governing the Fire Department, passed Sept. 9, 1857. Blanks can be procured at this office.

By order, JACOB EZEKIEL,
Secretary S. F. F. D.

Board of Delegates.

The Board of Delegates met in their chambers, at the City Hall, on last evening at 7½ o'clock, pursuant to adjournment. President F. Mahony in the chair. Mr. Ezekiel, Secretary. The roll being called, the entire Board, (34 members,) answered to their names. The Board then proceeded to ballot for President; Mr. Jones having withdrawn as a candidate. The 31st ballot being taken, Col. Mahony, the present incumbent, (although declaring himself not a candidate,) was elected; the vote standing Mahony 17; Sinton 15; Jones 1;—33 votes cast, necessary to a choice 17. The vote was then made unanimous, and the Board proceeded to the election of Secretary, Mr. Scannell, having nominated John H. Shepard, of Columbian Engine Company No. 11. On the first ballot Mr. Shepard received 13 votes; Ezekiel 17; Boruck 3; Whalen 1. Thirty-four votes being cast, 18 being necessary for a choice, there was no election. The Board then proceeded to the second ballot which resulted, Ezekiel 17; Shepard 13 Whalen 3; Boruck 1; no election. A motion was then made to proceed to a third ballot, when ensued a scene of unparalleled disorder, which it was impossible to quell, and the Board furnished a splendid argument for its own abolishment. A motion to postpone the election of Secretary and Treasurer until the Second Wednesday of December, was carried; Ayes, 18—Nays, 15. The Board then proceeded to the election of three Judges of election, which resulted in the choice of Messrs. P. W. Van Winkle of California 4, John Short of Vigilant 9, and F. L. Jones of Pennsylvania 12.—The Board then proceeded to the election of two Trustees of the Charitable Fund, in place of Wm. McKibbin and E. L. Sullivan, whose terms had expired, resulted in the re-election of those gentlemen; the former receiving 33 votes, and the latter 18.—The Monumental Engine House was selected as the place for holding the polls at the coming election. After the reception of communications from several companies, the Board adjourned.

Dinner to Caleb Clapp.

Eight months since, Mr. Caleb Clapp, Foreman of Tiger Engine Company No. 14, proceeded to the Atlantic States, commissioned by the members of his company to procure for them a suitable apparatus, $2500 being appropriated for the purpose.—The duty assigned him, having been fulfilled by Mr. C., he returned to the city on the "Golden Age," which arrived on Tuesday, and his company determined to testify their satisfaction on his return, by tendering him a complimentary dinner; which took place at the International Hotel on Wednesday evening, and was participated in by the Tiger Company and their invited guests to the number of eighty persons.

The company and guests assembled at Tiger's house on Market street at 8 o'clock, and in about an hour thereafter headed by the American Band, proceeded to the place of entertainment.

In the large dining room of the Hotel, a cross table, and one extending the length of the room was laid, upon which a splendid repast was in readiness. At the head of the table Mr. Clapp was seated; on his right, Mr. P. C. Wilkinson, the First Assistant of Tiger, C. Wilson, of the Board of Supervisors; Mr. S. R. Weed, of the *Chronicle*; Mr. J. J. Ayres, of the *Morning Call*; Charles Seitz of the Committee of Arrangements, and Mr. S. S. Gordon, representative of No. 14 in the Board of Delegates. On his left, was seated F. L. Jones, ex-President of the Fire Department, David T. Van Orden, Second Assistant Engineer, J. E. Nuttman ex-Chief Engineer, Jacob Ezekiel, Secretary of the Fire Department, S. T. King, of the *Spirit of the Times*, Mr. J. B. Taylor, Secretary of No. 14, and M. D. Boruck, of the FIREMAN'S JOURNAL. At the head of the long table sat the foremen of the different companies in the department; all of which were represented except Howard 3, Monumental 6, Young America 13, and Lafayette Hook and Ladder 2.

As soon as the Company, were within the room, Mr. Wilkinson, the 1st Assistant Foreman, called the assemblage to order stating the object of the entertainment to be a slight testimonial of respect to their foreman Mr. Clapp, and gave those present a cordial welcome. Full justice having been done the *viands* which had been gotten up with care and profusion, by the hostess Mrs. Haley, and the appetite appeased, Mr. Wilkinson, proposed that Mr. Franklin L. Jones preside over the festivities of the evening, which was unanimously acceded to, and that gentleman proceeded to read the regular toasts which were as follows:

The Engineers of the Fire Department, may they ever maintain the honor and fair fame of their charge.

Mr. Van Orden Second Assistant Engineer briefly responded to the above, in the absence of Chief Engineer Whitney.

The ex-Engineers of the Fire Department.—May they long enjoy the reputation they have so faithfully earned.

Responded to by Mr James E. Nuttman.

Empire 1.—Their good name has never been blighted by (Scanned) scandal. Response by Mr. Scannel.

Manhattan 2.—Second to none when duty calls. To this Mr. Cole replied.

Howard 3.—"Faithful and Fearless." As there was no one present from No. 3, there was no reply to the toast.

California 4.—May their future efforts be as successful as their past. Mr O'Brien responded.

Knickerbocker 5.—*Die Steerheit der Stadt hangt viel von puherer Hattung ab.* To this Mr. Vreeland eloquently responded.

Monumental 6.—May they still "strive to save." There being no one present from No. 6, there was no reply in the toast.

Volunteer 7.—Volunteers for the "Public Good." Mr Lane responded.

Pacific 8.—Faithful to duty. Response by Mr Chapin.

Vigilant 9.—Their acts justify their name. Responded to by Mr Short

Crescent 10.—Willing hands and stout hearts in time of need. Responded to by Mr. Curry.

Columbian 11.—They emulate the most active and best. Responded to by Mr. Devoe.

Pensylvania 12.—We "judge her by her actions." Captain Pollock, responded.

Young America 13.—True to their *Mission*.—No one being present from No. 13, there was no reply.

St. Frances H. & L. 1.—Their course is onward and *upward*. Mr. Worn replied.

Lafayette H. & L. 2.—May their reputation be as great as their name. The "Lafayettes," being unrepresented there was no response.

Sansome 3.—By the *Law*, "the last shall be first."

The "Press."—The "voice of the people is the voice of God." Briefly responded to by the editor of this paper, Mr. King of the *Spirit of the Times* and Mr. Ayres of the *Morning Call*.

Our City Fathers, may they not prove *step-fathers* Replied to by Mr. Wilson.

The Public Schools.—The *corner stone* of our country. Mr. H. B. Janes responded to the above.

The Fair Sex.—The wisest man the world e'er saw, dearly loved the lassses, O. Responded to by Mr. C M Plum.

Appropriate sentiments were given by all the gentlemen named, which were well received. At the conclusion of the toasts, three cheers were given for Mr. Clapp, and that gentleman in a few pertinent remarks returned his acknowledgments for the high honor that had been paid him, and assured the company that he should ever cherish a remembrance of it. The remarks of Mr. Clapp were enthusiastically cheered.

At the request of gentlemen present, Mr. Nuttman responded in behalf of Hook and Ladder 2, Mr. Boruck for Howard 3, Mr Batturs for Young America 13, and Mr. Jones for Monumental 6.

After this period, and the flow of wine giving zest and spirit to those around, toasts and speeches followed each other in quick succession. The Chief and Assistant Engineers, President and Treasurer of the Board of Delegates, Board of Trustees of the Charitable Fund, Board of Physicians and Surgeons of the Department, the Board of Delegates and Bell Ringers, were all remembered, amid great hilarity and good feeling. Speeches were made by Mr. Jones, Mr. King, Mr. Plum of No. 14, Mr. C. L. Taylor, Mr. John Brannan, Mr. Van Orden, Mr. Wilkinson and others.

Mr. Janes proposed the memory of the "Firemen Dead," which was drank in silence, and shortly after the company adjourned.

The whole affair was a very pleasant one, well conceived and carried out. The good feeling that prevailed was notable and considering the conflicting opinions which at present exist in the department, this is a feature in the affair, and is certainly worthy of notice. Not a word was spoken or a movement made which bore the slightest aspect to an impropriety. The "Tigers," did everything in their power to make their guests comfortable and happy, and succeeded most admirably. It is seldom we have participated on such an occasion wher there was so much real pleasure and gratification.

THE FIREMAN'S ADVOCATE.—The great success which has attended the establishment of the above is an evidence of the great appreciation entertained for it by the firemen genotally, and that it is deserved the paper itself is an evidence. We anticipate its arrival each steamer with much pleasure as we consider it one of the most useful and entertaining of our exchanges. Mr. J. P. Torrey an old member of the Fire Department has been appointed agent for the *Fireman's Advocate* in this city, and all who desire to subscribe for it can do so by leaving their names at this office. We hope the *Advocate* will meet with a large circulation in this State.

EXPECTED.—M. S. Neefus, Foreman of Pacific No. 8, is expected to arrive on the next Steamer.

From Our Regular Correspondent.

SACRAMENTO, Nov. 19th, 1857.

Editor Fireman's Journal: The mountain has labored and brought forth, what? not even a mouse. Our Second Assistant Engineer, as you have learned long before this will reach you, was tried last Thursday, and found not guilty. As the vote may be of use to some for future reference, not at another trial, for it is doubtful if any one will ever be again tried under our present constitution, I will give it here, viz: For sustaining the charges, Messrs Smith and Aspell of No. 3; Hoyt and Koneman of No. 4; Marshall of No. 6, and Swinerton of Hook and Ladder No. 2—6. Not guilty, Messrs. Culver and Parnell of No. 1; Housman and Aitken of No. 2; Keenan and Billings of No. 5; Cummings of Hook and Ladder No. 2; Mr. Quillan and A. Badlam of Hose No. 1. Mr. Rowland of Hook and Ladder 1, contrary to precedent, was excused from voting, he being prosecuting attorney. Mr. Watson of the same Company, was absent from the city. Mr. Sweetzer of 6, was absent on account of the loss of his only child. I was not able to be present at the meeting, or I would send a full report of the trial; however, you can get along with the *Union's* account of it.

I wish I could have seen you when you were up, as I understand you say you don't know who I am, (I send you my address and the number of my company with this) I would have introduced myself to you, and we would have taken a social "cornu" (vide Virgil) together. By the way, I have often wondered if the English word "corned," as applied to a miscellaneous individual, did not have its derivation from that.

I am glad to hear that you have obtained the services of such an efficient agent as friend Crawford of No. 1. Mr. C. is an adept, as well as an old hand at the business; having carried the *Town Talk*, *Sun*, and *Golden Era*, and subscribers can rely upon receiving their copies early Sunday morning. I hope he will increase your list to 300 in this city. You were sadly deceived in your other agents; one had too much to do with politics, another felt it above his dignity to carry a paper, and the last was too lazy. The last two were not firemen, and none of them used their best exertions for the interest of the paper. The boys have been rather harsh on your paper, as if it was entirely your fault that they did not receive them on Sundays.

Talk about the dull times in business circles, why it's nothing to the stagnation in fire talk now-a-days. I called at Capt. Keenau's saloon a few days since, and saw one of the prettiest things a person would wish to ornament a fireman's hall with, in the shape of a beautifully gilded and moulded oval frame, about 3 by 4 feet in size, with small oval spaces left in the centre, one for each member of the company, and a larger one for the machine, in which to place their daguerreotypes. Now that 5 has set the example, I hope all the companies will follow it, for it is a good idea.

No. 1 is going to take down the big rooster on the top of their house. For further particulars, and the reason why, apply in person or by letter to W. B. H, Sacramento.

The conclusion forced itself upon me upon reading last Sunday's *Spirit of the Times*, that their Sacramento correspondent either lived in San Francisco, or else was badly posted in fire matters here, as he states we had two runs last week. Now I will inform him that there was no alarm given for the incendiary attempt in the old Diana Saloon.

I was pained to see in the same paper such a partial, or rather such a one-sided piece, as the effusion from Bunk room, No. 97 engine. A fireman's paper should be neutral, and in favor of no man or set of men. The lines were well written, and I should like to see an effort of the author upon another subject.

I see by the papers received by the last mail, that the City of Chicago, after enjoying an almost unprecedented immunity from fire, was visited at last by a severe conflagration, in which terrible to relate, some three or four brave fellows lost their lives. The papers barely mention the fact, but if the boys get in a bit of scrimmage, the same papers teem with abuse of "those rowdy firemen."

An article appeared in the *Union* yesterday, touching upon reform in the City Government, and the reduction of city expenses, which went so far as to suggest the entire abolition of the salary of the Chief and Assistants. Such wholesale reformers ought to call a meeting for consultation at the "Reform House" on the Levee, where liquors are sold at 6¼ cts. per glass. The article above alluded to, advocates the reduction of the salaries of all other salaried officers, and I doubt not the Fire Department would readily acquiesce in a reduction say of Chief's salary to $1000, and Assistants to $300 per annum; the more so as the writer referred to, advocates the employment of a man to repair hose at an expenditure of $900 per annum.—This work has heretofore been performed by the stewards, and I see no reason why they should not continue to do it. Although but few of us pay taxes, we flatter ourselves we have the city's interest as much at heart as those who do.

The council have advertised for contracts to build No. 6's house, and as soon as one is closed, I suppose operations will be commenced immediately, and 6's placed on an equal footing with the rest of the Companies. They have adopted a plan which they say will not make such a fine appearance exteriorly as some others, but will take them all down in the interior arrangements.

There is considerable blowing as to the capacities and appearance of the two engines now being manufactured by Messrs. Agnew for No. 1, and Rogers for 6. I believe the boys have not made any bets as yet, but about the time they are expected to arrive, the "spondulix" will be "socked up" freely. The machines will be ornamented in the first style, with all modern improvements. For what the appropriation of the council fell short, the boys made up by subscription, and sent the amount to the respective builders.

No 4 generally seem to admit the correctness of the remarks in my last; but one of the members I hear, said, if he knew who it was that wrote those letters, he would "bust his head." Take it easy my boy, it was only said for your benefit. The bell is ringing and I must close. Hoping to have some news for my next, I remain,

Truly yours, J. LINGOLAY.

THANKS—To Jerry Sullivan, the "King" of Newsmen, for full files of Atlantic papers and periodicals, received by the "Golden Age." By the way, Sullivan has been appointed Agent for "Forney's California Press," which is intended for circulation in this State and Oregon. From the numbers before us, we see it contains full details of Atlantic European intelligence, for the fortnight preceding the sailing of the Steamer,

THANKSGIVING DAY.—We understand that several companies in the department intend coming out on Thursday next to try the powers of their machines. Would'nt it be well for a general turnout in some good locality—in front of the Oriental for instance—and have a grand playing match.

IN TOWN.—Pat Holland Assistant Engineer of the Sacramento Fire Department has been in town during the week receiving attention from his friends here.

"TRI-WEEKLY ARGUS."—Friend Smith please send us your valuable paper regularly through the Post Office.

Eureka 4 vs. J. Lingolay, Esq.

SACRAMENTO, Nov. 19th, 1857.

Editor Fireman's Journal:—An article from Lingolay in your last number contains animadversions upon Engine Co No. 4 of this city, which are so unjust as to call for refutation.

His first assertion, viz:—That "No. 4, declined renting their Hall for the trial of Mr. P. Holland, because at the last trial there were so many spectators that they sadly injured the carpet," is without foundation. The Hall was never refused to the Board on any occasion. This is blunder No. 1.

The next observation is as follows: "Nos. 6 and 4, *although 4 ought to have had the first water*, not in service." Let us enquire why 4 *ought* to have had the first water? The distance to be run by Nos. 4 and 5, respectively to secure the nearest hydrant is exactly the same to a foot by the nicest measurement; therefore we can see no rational inference which could justify Lingolay in the assertion that 4 ought to have had the first water, unless he means to aver that 4's company is the smarter, a compliment which modesty forbids us to appropriate. The real facts were these: No 4's hose carriage was the first apparatus on the ground but the officer in charge (and mistakes will happen in the best of families) laboring under the mistaken notion that there was a hydrant nearer the fire, ran beyond the one really nearest, and before he could recover his ground, No. 3 always smart had received it. The hose was then ordered to be stretched from No. 1 on to the fire, 1 being short and it was so stretched and the pipemen stationed ready for duty; but at that moment No 2's tender came up and took the attachment, she being entitled to it by supplying No. 1 with water. This threw No. 4 entirely out of further service. Enough of blunder No. 2.

The next critical passage is a piece of sage advice, (for which No. 4, feels duly humble and thankful) as follows: "No 4 ought to have a new election of officers, there are better men and much more active than two of them. She will never pick up under the present *regime*." To show how much No. 4, needs to "pick up" to be on an even footing with her sisters in service, we copy from the Chief Engineer's books the following record of "first waters" being a list kept by that officer since his entrance upon duty August 4th.

First water	Engine	No. 1	; 8	times.
"	"	"	2; 4	"
"	"	"	3; 3	"
"	"	"	4; 4	"
"	"	"	5; 0	"
"	Hose	"	1; 1	"

From this official record it will be seen that but one company out of the seven stands higher on the list than No 4, and but one other as high. Bah! Mr. Lingolay you are a bad critic. It is not noisy numbers that make a good company but the record! comrade, the record! We leave blunder No. 3 with the observation that the FIREMAN'S JOURNAL should have a "new election" of Sacramento correspondents. "She will never pick up" facts under the dresent regime.

EUREKA 4.

Letter from Howard

YREKA, Nov. 15, 1857.

Editor Fireman's Journal: Novelties are all the rage of late in this fairly tilled "Metropolis of the North," receiving appreciation and support, more on account of originality than the imitation of precedents for attraction. Something new is ventured on occasionally for the inducement of visitors from the mines and other portions of the country, varied in nature, within the range of good bad and indifferent. The apparent leading magnet seems to be the new game of Rondo, filling the different saloons to excess, with all sorts of folks, who are there regaled with the delicious strains of enlivening music, singing, dancing, etc., affording at the same time a respectable revenue to the city treasury under the license arrangement of $5 per night for each table. At the Challenge Saloon in the Colton Theatre building, we notice a full band of musicians, and women seated at the different tables, thus creating a grand promenade exhibition to the sight and hearing of the moving mass that frequent the saloon. The Arcade Saloon, directly opposite holds forth grand concerts, dancing &c., from the stage formerly used in the Arcade Theatre, which also naturally draws a crowded audience around the billiard or Rondo tables. Such music as the Arkansas Traveler, seems to meet with the greatest favor, and I must feel inclined to state that the singing and dancing of La Petite Lotta at the Arcade, is well worthy of appreciation. The smaller saloons in town also have some kind of musical or other attraction, in order to create an equal show of enterprize. Theatricals are scarce of late, and judging from the free shows, given, we should think there is but little demand, for the genius "vot spouts."—Notwithstanding all this revelry, there is much opposition to it, which only awaits the action of the Legislature at the coming session, to make some disposition of this new game of Rondo. Perhaps (and I believe) this game has more popularity in in Yreka and Northern California than any other portion of the State; but Yreka is more fortunate than Shasta, Weaverville, or Scott's Bar, by being incorporated and having the power of levying a tax. Our licenses are collected every night, affording no chance from any action of the Supreme Court or Legistature, to lay any claim against us for unconstitutional or illegal taxation, as the ordinance is null and void, by the time the officers in this county hear of such action. We feel satisfied that our license is more safe than your monthly license of San Francisco and Sacramento. You will excuse so much space about Rondo, but in relation to its magnitude here, it can be safely asserted that a larger amount of money is invested in it, according to its plentitude in the market, than was invested in all the prevalent games of '49 and '50.

A race recently came off at the Lone Star Ranch in Scott Valley between an Oregon and a California horse, resulting in the defeat of the California horse The distance was six hundred yards for $1000 a side, and it is said that $5000 inside bets were offered on the California horse, that could not find any bidders. A foot race also took place yesterday between an Oregonian and a Californian, which resulted victoriously in favor of the Oregonian by a distance of fourteen inches, in a run of eighty yards. Our California sports ought to get even on Oregon some way, and no doubt will in the next match.

The weather has been quite changeable of late, sometimes raining, freezing and blowing; and in a few short days, the rigors of winter will no doubt bear severely upon us. A few weeks more and you may hear of fast teams, sleighs and jingling bells, sounding and bounding along the snow and roads.

A small number of Lalake's and Scott Valley Indians had a private battle a few evenings since in the vicinity of Yreka, in which two of the Scott Valley tribe were killed. We did not learn the cause, but was told that they intend to have another fight.

We have had quite a number of marriages in our midst within the last month; in which connection I would state that there are several lovely, marriageable girls in Siskiyou County, many of whom have come among us during the past summer, from below, and from Oregon. We can boast of our society here, both in quantity and quality, notwithstanding we are a distant province of California, and the United States.

Last night the citizens were again aroused by the cry of fire, proceeding from the burning of a hay stack on Miner street, in the suburbs of the city.—The alarm occasioned the complete packing of Miner street, with people, enjoying a general run.—The Fire Company have a miserable location, and worse shanty, out of which the members have great difficulty to haul their truck, together with a hill to ascend at the Yreka House, before getting into the main part of the town; and it is no more than right that the authorities build a good house in a convenient place for their accomodation. The District Court is now in session, as the 9th instead of the 8th, as heretofore. Judge Wm. P. Daingerfield, of Shasta, presides, and the amount of business exceeds any previous session ever held in Siskiyou County.

Last Friday, the Odd Fellows had a grand celebration in honor of the anniversary of the Charter of Yreka Lodge No. 19. The order turned out in goodly numbers, consisting of an excellent brass band, Mount Shasta Lodge No. 70, Yreka Lodge No. 19, Encampment members and visiting brothers. After marching through the principal streets, under the marshalship of S. P. Fair, Esq., they proceeded to the church, where the oration was delivered by S. D. Turner, Esq., which was pronounced by all a masterly effort; and so popular was it, that the order will have it published in the Yreka papers. The order participated in the luxuries of a most excellent dinner, prepared by Messrs. Kenyon & Kennedy, at the Metropolitan Hotel.—In the evening, at the Metropolitan, the most charming and delightful ball of the season took place. There was an exceedingly large attendance of the beauty and fashion, from almost every section of our County, and the room was so crowded at times, that little space was allowed for a good display of the light fantastic movements. The ladies appeared so bewitching that it puzzled one to make choice of the belle of the evening; although I might choose, were it not for the jealousy of lady friends in regard to my partiality. I also noticed a trio of newly-made brides, bedecked in gay attire, who enjoyed themselves heartily in the mazes of the dance. The gentlemen exhibited every politeness and attention, and a portion of the evening were dressed in the regalia of the order; but I did not approve of the wearing the caps belonging to the officers, in the ball room, as it appeared more like a theatrical show; however their idea was to appear in full regalia, and they accordingly done so to the letter. HOWARD.

Fires and Alarms.

Nov. 16th, 3 A. M.—Hall Bell alarm; Seventh District. The Bell Ringer says he distinctly saw a light flash up in the vicinity of First street, and struck the alarm; but the firemen were unable to find any cause for a turn out.

Nov. 16th, 7 P. M.—Alarm from California's bell. Frame building on Ecker street, unoccupied; act of incendiary; the third time the building had been fired. Portion of the Department out; No. 4 in service; damage trifling.

Nov. 20, 11¼ P. M.—Alarm from Monumental Bell. answered within five minutes by the Hall, for the 3d District. Frame buildings, North side of Clay street, between Drum and East street, 2 entirely destroyed and 2 partially so on Clay street, one partly burned on Merchant street. The stores occupied by produce dealers. Loss about $4,000. Entire department out, Pacific 8 first water and Howard 3, second. Fifteen minutes after the alarm was given the fire was under control. Had the bell ringer, been prompt to attend to his duty the fire would not have destroyed as much as it did, but the delay in sounding the alarm was so great that it gained considerable headway. We call the Chief Engineers notice to the inattention of the bell ringer to his duty.

The Streets.

Editor Journal:—Would you be kind enough to call the attention of the Superintendent of streets to the condition of Brenham Place, one look at it will satisfy him and the Board of Supervisors of the necessity for its repair. One reason for the necessity of its being repaired, graded and planked is, the fact of one of our most efficient fire companies being located in the centre of the Place alluded to, and the difficulty of issuing from their house to a fire, is such as to endanger the lives of members, and to impair their efficiency in time of need.

Nov. 20th 1857. R.

We understand that if Clay street is not repaired the Monumental Engine Company, will be compelled to withdraw their large and powerful engine from service and run their smaller one, until the streets are put in good condition.

MAGUIRE'S OPERA HOUSE.—Miss Ince, and the excellent company supporting her, has been playing to full houses at this cosy little theatre, since our last. On Monday, Taylor's celebrated Comedy of "Victims" was produced, with Miss Ince as "Mrs. Merryweather," Mrs. Judah as "Miss Crane," Mr. Phelps as "Mr. Merryweather," Mr. Ryer as "Mr. Rowley," Mr. Smith as "Mr. Fitzherbert," and Mr. Anderson as "Hornblower," editor of the *Weekly Beacon*. The minor characters were also well cast, and the acting throughout admirable.

Miss Ince was most excellent as "Mrs. Merryweather," and the versatility of talent displayed by her, justly entitles her to the front rank of the profession.

Mr. Phelps did better than we have ever seen him. The close attention he gives to his duty, enables him to appear with satisfaction to his audiences. Mr. P. is a careful actor, and a worthy gentleman.

Mrs. Judah did more than justice to her part, and Ryer and Smith contributed greatly to the success of the performance.

On Wednesday night, "The Stranger," with Miss Ince as "Mrs. Haller," and Mr. Ryer as "The Stranger," together with "Victims," was played to a splendid house. Last night "Second Love," was presented.

To-night the play of "Linda of Chamouni, and the Comedy of the "Love Chase," will be presented. This is the benefit and last appearance of Miss Ince, we are sure there will be a fine house.

To-morrow evening, the celebrated French play of "Rœfelle, the Reprobate," will be performed, with Phelps as "Rafœelle." This is one of this genteman's best characters, and we have no doubt he will do his best to perform it to the gratification of the audience. On Monday night, Mr. Courtaine and Miss Grattan appear. Their celebrity as performers in Comedy, will doubtless attract crowded houses.

PICTORIAL.—Messrs. Hutchings and Rosenfield Publishers No. 146 Montgomery street, have laid on our desk their holiday pictorial, a large sheet containing cuts of the most attractive features of the State. That of San Francisco is an excellent one. The pictorial is one of the best newspaper enterprizes yet established in the State, and should meet with favor and patronage.

COLUMBIAN 11.—The hose boys of this company, are about procuring a new hose carriage, (four wheeled) The cost will be about nine hundred dollars, and it will be the property of the company.

E. A. HOOKER, ESQ.—We had the pleasure of a visit this week, from Mr. Hooker, of the Banking House of W. O. Sleeper & Co, of Columbia. Mr. H. has been making business arrangements for his house, which is the staunchest in the Mountains.

MENDED—Sacramento street, opposite the houses of Empire 1 and Knickerbocker 5.

The Military.

A CARD.

ARMORY MARION RIFLES,
Nov. 19th, 1857.

WHEREAS, It has pleased Divine Providence to remove from our midst, one of our companions in arms, who was endeared to us by his many virtues and manly qualities, and while we sympathize with the many who have cause to mourn over the loss of friends by the ill-fated "Central America," we must pause to shed a tear as a passing tribute to the memory of him whose kind heart and generous disposition won for him a host of friends "who knew him but to love him." Therefore

Resolved, That in the death of Thos. R Blanton, the Marion Rifles have been deprived of the usefulness and companionship of a gallant soldier.

Resolved, That as a *corps* we deeply sympathize with his sorrowing relations and friends in their affliction, and in respect to his memory, will wear the usual badge of mourning for thirty days.

Resolved, That a copy of these resolutions be forwarded to his afflicted family, and that they be published in the MILITARY GAZETTE of this city.

T. BOYCE, Secretary.

GRAND BALL.—We acknowledge the receipt of cards of invitation to the grand ball at Musical Hall of the First Light Dragoons and Independent National Guard, on Thursday evening next. Under the superintendence of the gentlemen composing those companies, the ball will as a matter of course be a truly *recherche* affair. The management have determined not to sell any tickets at the door, and therefore those desiring to be present must purchase their tickets of the committee of arrangements. The idea is a good one and will save much unnecessary trouble.

A grand parade and target excursion of the Boston Light Dragoons, took place on Wednesday, October 7th.

The annual fall parade of the Boston City Guard Capt. Shepard took place on Tuesday Oct. 13.

The Boston Light Infantry, which had made extensive preparation for a grand excursion to New York, postponed it until a more favorable opportunity, on account of the financial crisis.

The National Guard of Boston were to have a grand parade and target excursion on Friday Nov 6th.

The Somerville Light Infantry paraded on October 21st.

The Charlestown City Guard paraded on Thursday, Oct. 15th.

The "Tigers" of Boston, were to celebrate their anniversary, on Monday Oct. 19th as follows: They will parade without partaking of a dinner, and with new knapsacks, Gilmore's Band, and their invariable excellence of drill, they cannot fail to make a fine appearance. Their anniversary occurs on Sunday, and at about 4 o'clock on Monday they will march up State street with full ranks. Proceeding immediately to City Hall, the mayor will address them, and the exercises of the day will close with a review of the corps by Mayor Rice and members of the city government upon the Parade Ground. The former will be escorted to and from the common by the company. The ability and good taste of Capt Rogers and his command have won for them the esteem of the entire community.

The "Wallack Musketeers," named in honor of J. W. Wallack, Esq., were to have a target excursion early this month, in New York.

The *Leader* of Oct 17th, says: The annual inspection and review of the 7th Regiment will take place on next Monday afternoon. The Companies assemble at their armories at a quarter past twelve. The regimental line will be formed at half-past 2 o'clock on Hamilton square. This will undoubtedly be the largest parade ever made by the regiment, as each Company will turn out its full compliment of men.

The parade of the Seventh in Williamsburg last week was a success. Our article on the affair was unavoidably left over. The march was rather too long for comfort, but the after arrangements in way of a collation made up for the labor.

The 71st inspect at Washington Square on Monday, at 3 o'clock. As this fine regiment is growing rapidly both in numbers and in efficiency, we expect to see a large turn out. They wear their new uniform cap on this occasion for the first time.

The 55th Regiment will inspect on Hamilton Square on Monday. The State Guard, Capt. Johnson, belong to this battalion, this fact alone will attract a large concourse of outsiders.

EDITORIAL.—Mr. Geo H. Crossette of the *Butte Record* and H. C Patrick of the San Joaquin *Republicrn* have visited us this week.

Steam and Sulphur Baths!

Warm and cold Sea Baths—Swimming BATHS, and all kinds of MINERAL and ARTIFICIAL BATHS for the Lungs and many other Diseases, on

Meiggs' Wharf.

The first and only Sea Bathing place on the Pacific Ocean where every convenience is found, in the latest style, for the accomodation of Bathers and Invalids.

There is also attached a Warm Sea Bath, for Ladies of the Hebrew faith, where they can bathe according to their religion, and which is connected with the sea.

This institution has now been in operation one year, and it has not only satisfied the expectations of the public, but has far exceeded the anticipations of the proprietor. The throng of sufferers and bathers has increased daily, in consequence the bathing facilities have been extended and enlarged, and several important improvements have been made. Each bather has a separate room, where he can be properly cooled and rested.

The use of the Sea Baths is not a palliative, but a positive remedy. It takes the disease at the root and eradicate it effectually. Hundreds of patients who used these baths according to the proper directions, have been healed and some diseases that have baffled all other remedies, have been cured by the use of these baths in a short time.

Every kind of malady can be cured by using these baths, and it is unnecessary to enumerate them here.

In connection with the bathing establishment, is a HOTEL, containing a great many rooms elegantly fitted up for patients and bathers, and where they can lodge and receive medical aid and attendance. Merchants and Miners who visit San Francisco, either on business or on account of sickness, should not fail to go directly to the SEA BATH HOTEL, before they fall into the hands of the many quacks that sbound in San Francisco.

Ladies and gentlemen patronizing my establishment will find neatly furnished parlors where every attention will be paid; and to bathers the utmost care will be rendered by polite female and male servants. These baths in connection with the Sea Water Douche, will perform wonders, and as the price for their use, and lodgings at the Hotel, is only from $2 50 to $5 per day, its benefits and blessings are alike accessible to the poor as well as the rich.

To convince the people of California that there is no humbuggery about the institution, I will hereto append one of my cards of thanks that have been sent to me:

SAN FRANCISCO, 10th Nov., 1856.

I here publily state that I was afflicted for many months with severe bodily pains, from which I had no rest by day or night. I consulted several eminent physicians in this city, but none could help me. I lost all my flesh, and looked like a skeleton. My husband thought it necessary to send me on to New York to try a cure. In this perplexity, I called on Dr. Bruns, who ordered me to take medicine four times, and to try the Sea Baths, which soon restored me to health and vigor. I thank the Almighty that he has sent me to Dr. Bruns, under whose care I soon became healthy and strong. I consider it my duty thus publicly to make known my case, to let all sufferers know that Dr. Bruns is the man to relieve them from their bodily pain, and to restore them to health.

MRS GROSSMANN,
MAX GROSSMANN,

Every three minutes the Omnibuses arrive at the establishment, from the centre and the extreme part of the city.

MEDICAL.

DR. L. J. CZAPKAY'S

Grand Medical and Surgical Institute,
Jamento streets, below Montgomery, opposite Pacific Mail Steamship Company's Office, San Francisco

Established for the permanent cure of all private and chronic diseases and the suppression of quackery.

DR. L. J. CZAPKAY, late in the Hungarian Revolutionary War, Chief Physician to the 20th regiment of Honveds, Chief Surgeon to the military hospital at Pesth Hungary, and lecturer on diseases of urinary organs and diseases of women and children, has opened his institute for the cure of all forms of private diseases, such as syphilis gonorrhea, nocturnal emissions and all the consequences of self-abuse. In the first stages of syphilitic or gonorrhoal diseases, he guarantees a cure in a few days without inconvenience to the patient or hindrance to his business. When a patient by neglect or improper treatment, has developed the symptoms of secondary syphilis such as bubboes, or painful swellings of the groins, or ulcers of the throat or nose which if not checked, destroy the soft parts and cause the bones to mortify, seperate and come away, leaving the sufferer hideous to behold; or when splotches or pimples break out upon the skin, or when he has painful swellings upon the bones, or when his constitution is injured so as to predispose to consumption or constitutional disease, the Doctor guarantees a cure or asks no compensation.
In rheumatism, chronic or or acute, in dysentery or diarrhœa he has safe and effectual remedies. For the treatment of the consequences of self-abuse, such as nocturnal emissions, nervousness, timidity, headache, pains in the back and limbs, with general weakness, loss of appetite, loss of memory, injury to the sight, restlessness, confusion of ideas, dislike for society, and a feeling of weariness of life, with the nervous system so excitable that slight noises shock or startle the patient, making his existence miserable. For the above maladies, the Doctor will guarantee a cure or ask no compensation. He can be consulted free of charge, and invites all to call, as it will cost them nothing, and may be much to their advantage.

A Tribute of Merited Worth.

THE ingratitude of man to his fellow-man is so often met in life that testimonials, prompted by the finer feelings of the heart, are oasis in the life of those who sacrifice their best days in philanthropic devotion to the alleviation of the ills of frail mortality. Empiricism floods the columns of our press with fraudulent and fictitious letters singing pæans to the worth of their egotistical charlatanism. Below we append a letter from a worthy man, who a brief period since seemed destined to shuffle off this mortal coil," who looked forward to his dissolution with that pleasure which only those weighed down by the heavy hand of disease can. Contrary to hope, the ability of a skillful physician has restored him to his former health. Relieved from his terrible situation, and impelled by gratitude, he makes known his case and remedial agent, and his statement is authenticated by a notary public. The demands of society imperiously command its publicity, and it is given more to warn the unwary than to sound the praises of a physician of whom scores of like cases can be cited.

CERTIFICATE.

The undersigned, desirous of acquainting those who may be unfortunate enough to be similarly afflicted where a permanent relief to their sufferings may be obtained, feels it his duty to thus publicly express his sincere gratitude to Dr. L. J. Czapkay for the permanent recovery of his health. Borne down by the distressing symptoms incident to the vicious practices, of uncontrollable passions of youth, depressed in body and mind, unable to perform even the most trifling duty imposed upon the daily avocations of life, I sought the advice of many physicians who at first regarded my disease as of trifling importance; but alas! after a few weeks, and in several instances months, of their treatment, I found to my unutterable horror, that instead of relief the symptoms became more alarming in their torture, and being finally told by one that the disease being principally confined to the brain, medicines would be of little consequence. I despaired of ever regaining my health, strength, and energy, and as a last resort, and with but a faint hope, called upon Dr. Czapkay, who after examining my case, prescribed some medicine which almost instantly relieved me of the dull pain and dizziness in my head. Encouraged by this result, I resolved to place myself immediately under his care, and, by a strict obedience to his directions and advice, my head became clear, my ideas collected the constant pain in the back and groins, the weakness of my limbs, the nervous reaction of my whole system on the slightest alarm or excitement, the misanthrophy and evil forebodings, the self-distrust and want of confidence in others, the incapability to study, and want of resolution, the frightful, exciting, and at times, pleasureable dreams at night, followed by involun ary discharges, have all disappeared, and, in fact, in two months after having consulted the Doctor, I felt as if inspired by a new life—that life which, but a short time ago, I contemplated to end by my own hand.
With a view to guard the unfortunate from falling into the snares of incompetent quacks, I deem it my duty to offer this testimony to the merit and skill of Dr. Czapkay, and I recommend him to all who may stand in need of medical advice, being assured by my own experience that, once under his care, a radical and permanent cure will be effected.
B. F. FILLMORE.
State of California, County of San Francisco.—Subscribed and sworn before me this 17th day of April, A. D. 1855.

Spermatorrhœa.

OR local weakness, nervous debility, low spirits, lassitude, weakness of the limbs and back, indisposition and incapability for labor and study dullness of apprehension, loss of memory, aversion to society, love of solitude, timidity, self distrust, dizziness headache, involuntary discharges, pains in the side affections of the eyes, pimples on the face, sexual and other infirmities in man, are cured without fail by the justly celebrated physician and surgeon, L. J. Czapkay. His method of curing diseases is new (unknown to others) and hence the great success. All consultations by letter or otherwise, free. Address L. J. Czapkay, M. D., San Francisco, California.

A CARD.—Prompted by an honest desire of my heart I wish to lay before the public a case which deserves a high commendation, not only as an act of scientific skill but that of humanity also. About two years ago I suddenly, and from causes unknown to me, was seized with a fit of epilepsy, which, owing to my inability to meet the expenses consequent upon a thorough medical treatment, and the discouragement I met with on attempting it, soon became such (and was then led to believe) as to defy the skill of physicians. I was frequently, while in pursuit of my calling, thrown down to the ground without the slightest warning, and, although insensible to the agonies, I yet despised the miseries of my life, and soon learned to look upon those who would render me assistance or shelter me from danger as enemies who sought to prolong the misery of my existence. While in this state and having previous to my affliction tasted the sweets of life, I once more was induced to attempt seeking aid of a physician, and by recommendation, called upon Dr. L. J. CZAPKAY. I told him my circumstances and my inability to reward him for his services, regardless of which, however, he at once undertook my case, and with the blessing of God I was once more restored to perfect health. Unable to reward him for the boon which I enjoy at present, and yet conscious of my indebtedness, I consider it due to myself and to all afflicted, to make the case public, inorder that those in need of medical advice may find a physician in whom every confidence can be placed.

GILBERT A. GRANT,
Notary Public.

The Greatest Discovery of the Age,

GREAT BLESSING TO MANKIND—Innocent but potent—Dr. L. J. Czapkay's Prophilacticum (self-disinfecting agent), a sure preventive against gonorrhœal and syphilitic diseases, and an unsurpassed remedy for venereal, scrofulous, gangrenous, and cancerous ulcers, fœtid discharges from the vagina, uterous, and urethra, and all cutaneous eruptions and diseases. As inoculation is a preventive against small-pox, so is Dr. Czapkay's Phophilacticum a preventive against syphilitic and gonorrhœal diseases. Although harmless in itself, it possesses the power of chemically destroying the syphilitic virus, and thereby saving thousands from being infected by the most loathsome of all diseases. Let no young man who appreciate health be without Dr. Czapkay's Phophilacticum. It is in very convenient packages, and will be found convenient to use, being used as a soap. Price $5.
For sale at Dr. Czapkay's Private, Medical, and Surgical Institute, Sacramento street, below Montgomery, opposite Pacific Mail Steamship Company's Office, San Francisco.
All orders must be addressed to L. J. Czapkay, M. D., San Francisco, California.

THE ELECTRO-CHEMICAL BATHS

OF DR. BOURNE.

Southeast Corner of Sansome and Commercial Streets, opposite the St. Nicholas Hotel, San Francisco.

Are effecting the most extraordinary CURES of Fever and Ague, Intermittant and other Fevers, Jaundice, Disease of the Liver, Kidneys, the Genital and Urinary Organs, all Sexual Disorders, Paralysis, Neuralgi, including Tic Doloreux Stiff Joints, and are also employed with astonishing success in
DISEASES OF THE EYE.
Also, all indolent Ulcers, Tumors, Swellings Abscesses, Cancer of the Womb, all other affections of the Womb and Cancerous affections generally, and Scrofula. These Baths seem to be Nature's own chosen medium for affecting cures where all other means would fail without them; and prove beyond the possibility of a doubt, to all who take them, the iniquity of medical practice which poisons the system by administering to it calomel, arsenic, lead, zinc, iron, antimony, quinine, iodide of potassa, and a whole host of deadly drugs, which remain in the system, and are EXTRACTED BY THESE BATHS.
During fifteen years I have never given even a solitary dose of oil or salts, much less any POISONOUS DRUGS or herbs, and have never seen a case in which they were required after treatment was employed. When all the people cease to be such simpletons as to hire men to POISON and BLEED them, while they also retain on their statute books laws against poisoning, maiming, and bleeding CATTLE! Are the members of the human family less worthy of protection than animals? I assert, in the face of the State and the world at large, that there never was, or is now, and never will be, a case in which calomel, cruise mercury, quin ne, arsenic, lead, zinc, antimony, iodine, or any other POISON, should have been, or should be, administered to the human system, or in which bleeding, cupping, or leeching are required; and further, that hundreds of thousands fill premature graves through an ill timed or overdose of salts or oil. Let the people ponder on these things, and if the poor and deluded victims of medical rascality desire health, I pledge the honor of a man at least that I will employ NATURE'S AGENCIES of good food, air, pure water, exercise clothing, the Electro-Chemical Baths, and the sleeping and waking hours, that without a particle of NASTY and POISONOUS medicine. I will so arouse the powers of their systems that if there be at y strength left they shall speedily get perfectly well in body, with minds so expanded to the perception of natural philosophy, as thereafter to cause them to direct their faces against the professional impostures of fools, and awake them to a knowledge of the evils of intrusting their own vital interest to the keeping of others whose interest must ever be antagonistic to their own.
Ad ress, by letter or personally, Dr. BOURNE, Water Cure Physician, Sansome street, opposite St. Nicholas Hotel San Francisco, importer into this State of the FIRST and ONLY apparatus for giving these delightful and beneficial Electro-Chemical Baths, and whose experience in their use warrants him in speaking of them in the terms he employs They require great caution in administering them, and Dr. Bourne never intrusts that duty to others, thus avoiding all danger.
So many lying and forged certificates, and PRETENDED editorial recommendations are published, that those truthful statements of facts which Dr. Bourne could offer are withheld, rather than any should suppose they were merely got up.
Consultations without charge, and charges very moderate for the benefit conferred.
QUICK CURE—SURE CURABLE (if curable)—is the motto of Dr. BOURNE.

That this is no fable, let every one know,
'Tis true, not in part but in whole;
To the street called Commercial, let all skeptics go—
For there they will find Holcombe & Dole.

If, whilst walking, a lady you happen to meet,
With shoes that fit close to the sole,
Be sure she has been to Clay and Kearny street,
And purchased of Holcombe & Dole.

If a gentleman passes, with boots on his feet,
High polished and black as a coal,
Be sure by the make and fitting so neat,
They were purchased of Holcombe & Dole.

In fact, amongst importers, search where you will,
From the first to the last on the roll,
For workmanship, neatness, and moderate bill,
Not one can beat Holcombe and Dole.
